

As a tax professional, **Byron Smith, CA**, is prepared to provide a full range of corporate and personal tax advisory services to his clients. Byron's professional capabilities include...

...expertise to address your corporate tax planning needs. Byron can work with you to develop appropriate and innovative solutions including planning for overall corporate tax minimization, structuring tax efficient management compensation strategies, and preparing for the succession or sale of your business.

...expertise to provide comprehensive plans which address both your personal tax needs and those of your family. Byron is able to work with you and your other advisors to explore appropriate strategies, including estates and trusts planning, to ensure that your financial and estate planning objectives are met in a tax-efficient manner.

...expertise to advise on Canadian tax implications for individuals' cross-border issues, including tax implications for individuals moving to or from Canada, Canadian residents owning US vacation property, as well the Canadian tax implications and requirements of non-residents of Canada owning Canadian real property.
